Advantages of Pallet Label

- Helps get the shop open quickly, allowing shopfitters to locate items on site, especially when it comes to pallets containing a lot of mixed items.
- Speeds up your shop-fit, queries and the checking of items upon receipt.
- Reduces downtime for shopfitters and helps keep sites tidy and organised.
- Keeps efficiency high and minimises overheads.
- Reduces the risk of damages by eliminating unnecessary time spent searching for items, particularly for large sites with lots of pallets.
